

RAUMTÄNZER  
CREATE YOUR OWN REALITY

# AR/VR will dominate the world. Are you on board?

Scan the QR Code with your smartphone and download the RAUMTÄNZER app.  
Scan the entire graphic in landscape format with the app. Stay in this position and wait for the surprise.

We are looking for a

## *Backend Software Developer (m/f/d)*

to join our team immediately

Initially a Bielefeld University spin-off, RAUMTÄNZER GmbH was founded in April 2017 as an independent company with offices in Bielefeld and Rheda-Wiedenbrück. RAUMTÄNZER develops innovative solutions for augmented reality (AR) and virtual reality (VR).

RAUMTÄNZER is a team of technology geeks. We are at the interface between science and business, and continuously work on research and further development of our products and services.

Are you more interested in achieving fantastic results rather than completing tasks with the least effort? Do you have high quality standards and the motivation to break new ground? Then shape the future with us and apply now!

### **This is what makes you stand out:**

- You have a university degree with a focus on software development.
- You have very good knowledge of databases and Java as well as knowledge of various backend communication protocols (JSON, REST).
- You use databases, Docker and Git proficiently
- You work orderly and systematically, and pay attention to the smallest detail.

### **This is what you will do:**

- Implementation of modern web applications with Java Play
- Maintenance, documentation and further development of a backend system for the content management of various applications
- Conception and implementation of complex interfaces with third-party systems
- Conception and implementation of independent backend modules

### **This is what makes us special:**

- Regular staff meetings for career development
- Trust-based working hours instead of set hours and clocking in
- Flexible hours, either at home or in our offices in Bielefeld and Rheda-Wiedenbrück
- Personal laptop to work flexibly

Interested? Even if your profile does not match every single requirement, you still stand a chance if you impress us with your personality! We can work together on developing your skill set.

Send your application and work samples to the following email:  
**[bewerbung@raumtaenzer.com](mailto:bewerbung@raumtaenzer.com)** or use the application form below.

If you have any questions, contact us on **Phone +49 5242/55 000 - 61.**

We look forward to meeting you!
